What is the root cause of work stoppages?

- Management insecure and micromanaging
- Funding was approved late
- Approval process unwieldy
- Management not giving the project sufficient priority
- Funding approvals required too frequently
- Financial pressures are resulting in “skimping”
- Work keeps stopping for lack of funding
- Management doesn’t see the profit in the project
- Org. structure suboptimal
- Managers aren’t communicating effectively
- Management lacks training, experience, or sufficient mentoring
- Funding was insufficient
- Management lacks training, experience, or sufficient mentoring
